Volume Exuperon. - A violent cruption of the volcano of the Island of Fogo, Cape Verd, took place on the 9th of April. At . about seven o'clock in the evening, a subterranean noise was heard, which was repented about twenty, minutes ofter, and again repeated about an hour later. On the last occasion the craters of the volcano opened a thick smook issued forth and covered the horizon, enormous stones and showers of cinders were thrown in the air, and then burning lava flowed from the seven openings of the volcano in the direction. of the convent of the Holy Sacrament, and finally arrived at the sea, taking about four hours to traverse a distance of about three .. miles. The lava continued to flow for some, time, and rapidly increased every moment. The ground traversed by it is completely ravaged. Animals, vines, crops, houses and buildings, have been swepl away. The, poor colonists have preserved nothing, and are in a state of the most frightful misery. The only loss of human life was that of a child of six years, who was surprised by; the burning lava, and perished before hecould be rescued; and four persons sustained injuries. The cruption was not at allexpected, for the craters of the volcane had been closed for fifty years, and had not evon emitted smoke.

WEDNESDAY, OCTOBER 27, 1847. BY O. F. JACKSON, 97-THAMES ST.

> [Correspondence of the News.] New York, Oct. 25, 1847.

PRIEND JACKSON :-The weather has been extremely unpleasant for the last few days. It did not rain hardly sovere enough to warrant a person in confining himself to the house, yet it was sufficiently uncomfortable to deter him from going out. To day is a fittle pleasanter, and gives promise of a good time coming.

The approaching election in New York will be more interesting than our full elections usually are, from the fact of its being the first election for State officers that will have taken piace under our new Constitution. The various parties are putting forth all their energies, and nominating their best

The Whigs appear to be united and consequently confident of success; but the democratic party are in a state of civil war. The party appears to be divided into four sections, those who go for throwing over board the old party backs, and substituting new and untried men in their peace, and those who stick by the old favorites of the party, and contend that they are the best domocrats. Then there is the barn burner section, and the old hunkers. The "young uns" insist upon having some of the choicest marsels from the first table .--They say they have been put off with the crumbs and leavings long enough.

The young uns" are the progressive democracy," and will no longer take councit of the old chiefs. The "old uns" say they can hardly get loaves and fishes enough to supply the demand among the mselves The "unterrified" held a meeting at Tammany Hallon Friday night, to ratify the Syracusenominations. The meeting, owing to the intrusion of some of the subterranean portion of the party who were present, broke up in a row. All of the old reasonings for the million, the appeals made in ! the name of Gen. Jackson; and in fact all ! the most potent agences usually employed, would not queil the disturbance, or calm the elements of discord that seemed to have taken possession of the party. The whigs aretencouraged by the discensions among their opponents, and reasonably feel confident of success.

The Protestant Episcopal Convention of nearly three weeks. The body are now discussing the question, whether the sur pension of Bishop Onderdonk from the exercise of his Episcopal functions, without specifying the term, rausies me Diocese. --It has proved an agitating question, and ingenious argument, both elougently delivered and dull, have been expended. The question is not decided.

SAND'S SARSAPARILLA.-Thousands of persons are heirs of scrouda; they come into the world with the tant in their blood, which, by the world with the tant in their blood, which, by the time they reach insturing, develops itself in some form or other. All such persons should keep a stock of this preparation by them, if at a distance from any town or city where it may be presented. Sor should they wait for the disease to show itself in ulcers or eruptions but should keep it down by frequent resort to this unrivaled antiseptic. The seeds of scrafula, though hereditary in the blood, will not germinate while that fluid is under the influence of this powerful detergent, which, if administered at intervals, will keep down the hereditary intered at intervals, will keep flown the hereditary tendency through life. As "prevention is better than oure," we recommend all who have a pre-disthan cure," we recommend all who have a pre-disposition, hereditary or otherwise to ulcerous or eruptive diseases, to go through a caussoof this medicine at least every Spring and Fall.

I would have dreadful coughing er the, that I thought it was impossible for me to syrive unless I could get relief. The excessive sight events had reduced my whole body to a skeleton. I expectorated white frothy mucous, in fact, should I give the full particulars of my case, it would be almost incredible. I was recomcase, it would be almost incredible. It was recom-mended to try Dr. Vondersmith's Indian Cough Palm and Lung Balsam. I consented; when I is the used it about one week, my cough decreased e-insiderable, which gave me great hopes. I con-tinued with the medicine according to directions, and the result has been that I am restored to health and the result has been that I am restored to health n blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vondersmith's invaluable medicine, that I would be moublering in the silent grave.—

Middletown, June, 25th, 1843.

Dr. Boardman, Sir-In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the that time continued to grow worse, when in the that of 39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising bloed, coughing very hard and expectorating profusers, deriving no lonefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had beard a good account of Dr. Hanning's Lace in such cases; and was anxious that I should try it; such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become edsy and natural; the pain and fluttering or pablitation of the heart has subsided; cough and expectoration greatly besomed, my limbs which were exceedingly painful have become useful, so that I can walk confortably. I am able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly cradicated. I work some in the garden, and am able to ride 4 miles at once with pleasur. and am able to ride 1 miles at once with pleasure and benefit. Yours, &c. WM. RINNEY. Dr. G. M. Beardman

Middletown, June 25, 1848. Dr. Boardman

Dear Sir—In answer to your inquiries re-specting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines rec ommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palphation of the heart, oppression and a sense of great weight at the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument. aug. 29tf. STEPHEN BROOKS, JR.

Doctor Boardman,—Dear Sir—I now take my
pen to inform you that my wife's health has improved very fast for the last two weeks from wearng one of your Laces She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She re-ceived some benefit from that—but it would not produce a cure. But now I can say with pleasure hat she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write.

Doctor Boardman, proprietor of Bannings cele-brated Patent Body Brace, for this state, has taken rooms at No. S, Broad street, where he may be con-sulted, free of charge. He is enabled to treat, suc-cessfully, cases of Rheumatism, Neuralgia, Head-aches, Deafness, loss of Voice, Bronchites, Weak-ness and curvations of the spine, and chrome dis-cases generally. IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severo scrutiny of all classes, both friendly and unfriendly. It is but for one purpose;—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an agreed. It is for your reis to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before conlinement. Then you can approach the par-turient chamber without feeling as if you were go-ing to the chamber of death. You may rest ass-ured it will still all ferbrile and nervous affection. It smoothes and shields from irritation and by its peculiar properties it destroys the cause of her morrhage or inflamation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilities the birth, so that Mothers have not to pass through such exeruciating pain and distress. The Mother's Relief may chedepended upon in all cases of threatning abortion where it is possible to be prevented in cases of Spasams, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety

be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, [and also the opinions of many physicians of eminence, and of persons who have become acquainted with its benefical effects.

Miracle.

ON the 4th of August, in the year 1843, a singular scene occurred in the Royel Scientific Institution of France. The aged, white headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphates). ant,) and his voice with gratulatory tone, delivered the fallowing report :

"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to soap, which we know by actual practicure every cutaneous cruprion, every disfigure-ment of, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yel-tow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)

There are probably few persons of intelligence,

who, after reading the above, will doubt the quali-tics of JONES' PALIAN CHEMICAL SOAP, instantaneously the Hair or Whiskers in a few init soft and fine? Read—I, Henry E. Cullen, Henry E. One of our subscribers, Mr. M. Leonard, informs as that he has been cured of old, scaly Salt Rheum, of eighteen years etending, on his head, fingers and hands, by a cake of an article tauch advertised lately—we speak of Jones' Italian: Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin nucle clearer and whiter.

James Eltham, a painter in Jersey City, was cured of carbuncles and pimpies, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.

Orange country, April 19th, 4846,
Dr. Emanuel.

Dr. EMANUEL,
Dear Sir: —You may perhaps think my statement almost incredible. My reason for fearing a is the fact of your never recommending you Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I feltfully convinced; that unless relief was obtained, I must soon be consigned to the carrow confines of the silent grave. But by the timely use of your remedy. I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured. he use of your Jelly, I again say, I am cored.
Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given, you a plain statement, let me conjure you to pause, ere it is too late: try this Balsamic Lung Jelly—try it. I have just its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued, another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement

of your cure. Dr. Emanuel's Balsamic Lung and Cough Jelly, sold by the Agent; R. J. TAYLOR. is sold by the Agent; R. J. TAYLOR.

Coggeshall & Bliss' Patent Cooking Range.

THE subscribers have just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape brough the chimney.

Wood or coal may be used, and the evil of smok-

ng chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought. in close proximity with the fire, and it consequestly hoils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or, cook stoves. It contains five boilers, four of which may he converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for

haking.
The subscribers have one of their Ranges in a peration at their store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. They also keep constantly on hand all kinds of Parlot, Office, and Cook Stoves, Tin Ware, &c., &c.
